

A home away from home on the journey to Australia

A long stay is easier when your pet has familiar routines, attentive people and room to settle in. Our private Brunei boarding is designed around their comfort and care.

Companionship and daily care

Private home setting

Space to settle in

Why families choose private home boarding

- **Cage-free accommodation**

Comfortable, air-conditioned rooms in a home environment, with care tailored to each pet.

- **Careful introductions**

Pets settle into their own space first. Introductions to other guests are gradual and guided by their comfort.

- **Updates for you**

Regular photos and videos via WhatsApp help you stay close to your pet throughout their Brunei stay.

- **People present day and night**

Our Brunei boarding page describes round-the-clock staffing, including dedicated pet carers and veterinary support on site.

- **Daily attention and grooming**

Individual attention, play and suitable exercise form part of the routine; bathing and basic grooming are provided as appropriate.

- **Focused on Australia-bound pets**

The facility is intended for pets preparing for onward travel to Australia, with the boarding stay coordinated alongside their relocation plan.

Every pet has different needs. We will confirm the boarding arrangements, veterinary schedule and activities appropriate for your pet as part of their individual relocation plan.
